Dedication

In appreciation and recognition of the great support and assistance, in relation to my mathematical research, which my wife, Her Royal highness Princess Shirley has given, from the very first beginnings and extending over the period of our forty five years.

In my desire to show and record my deep appreciation of such consistent interest and physical assistance, I herewith dedicate this book to my wife Her Royal Highness Princess Shirley.

Thankyou Shirley for 69 years of great companionship and 63 years of happy marriage.

RE-VISION **and** **NATURE'S BIOLOGICAL CLOCK**

Mankind has in all of recorded living history believed strongly in the “God” and or “Gods”; the creator of all; the supreme controller of everything.

With mankind’s development over thousands of years, the beliefs have changed, but the “faith” of belief in the “God” has remained very entrenched in the minds of many people, over whom the various religious organizations have considerable influence and some have virtually actual control of the people.

There are some spiritual organizations which do not believe in an immortal supreme, God, controller of all.

Progression of changing beliefs and faith have met with enormous resistance over thousands of years. Many humans have been killed over any attempt by them for change.

Academic knowledge progress has been at times fiercely resisted, by destroying any written academic material, and putting the instigators under extreme conditions, with the purpose to destroy any academic knowledgeable progress by mankind.

This then is a very well known and recorded fact which needs no great detailing herein. It is also a factor of today. Not just by those in high positions of authority, but also by the average person, who is blinded by “Faith”. For to have faith is very prestigious, highly commended by fellow persons of that faith, yet greatly despised by persons of another faith.

3500 years BC an Egyptian Pharaoh moved his capital city, built a grand temple, had all references to the then 200 various Gods removed from everywhere in Egypt and replaced these with one God, "Sun God". The new capital was built for "My Father" and he was then "a God".

After seventeen years of reign, his daughter had died, his wife had died, and he also died.

The two hundred religious organizations rose, removed all references to the Sun God and restored their various gods.

The capital city turned to dust, but of recent years many excavations have brought forth the history of this period.

It is interesting to evaluate and compare mankind's eternal search for their "God".

"Faith" is that of having a "Spiritual Belief", which is not supported by scientific verifiable proof. In many countries it is sacrilege to oppose the prevailing faith of that country or religious organization.

It is a fact that in many of the higher Educational Institutions they do confidentially acknowledge that they know that there is great fallacy within existing religious belief of faiths, but lack a replacement with verifiable "Theory". In fact there has generally been a lack of replacement, "Hypotheses", which then will lead to "Theory", which is one which is verifiable with physical touch or measure, etc.

There is a principle in science that you do not destroy a belief unless you can replace it. That is, it is quite easy to be a critic and full of disbelief. But then one may also require of the critics, to state and show, with proof that which would validly replace the existing belief.

Spirit = 91 (in Gematria)

“Nature’s Creation”

13	÷	91	=	0.142857 142857...

$$* 3 \div 91 = 0.03296703 \ 296703...$$

Where there is both “Spirit”, (91) and Natures Constant, “**NC28**”. Then the product thereof is:

$$NC28 \div 91 = 0.307692$$

The inter-relation of the Spirit (91) with Natures Constant, of **NC28** is very clear.

[The product of (91 ÷ 28)] ÷ 91 = 0.0357 **142857...** therewith is the Spirit series, as proven through the Fibonacci series.

We have taken the Spiritual series back before creation, into what may be considered, “Before time itself”. For the “Body Cell” starts at 78. (13.26 and 39, which equals 78, are the forming of a Creation).

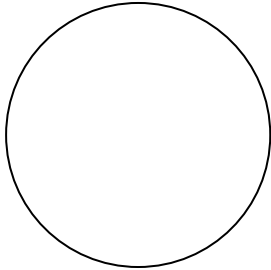

It is assuredly, “The Holistic Nature of Reality”, throughout the total universe and space thereof.

Principle of Morad Energy of Creation from Pi

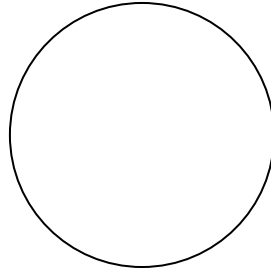

The Ancient Egyptians used, Pi $(22/7) = 3.142857\dots$

Principal of Morad [Dyad or Duality]

360°

360°

$$360^{02} = 129600 \div 7 = 18514.2857142857\dots \div 129600$$

is 0.142857142857...

This formula, of any identity of any value when, using itself and then to become mathematically (1) will always give you the resultant formula of:-

$$1 \div 7 = 0.142857 142857\dots$$
